■ ILLUMINATED ENTRY SYSTEM

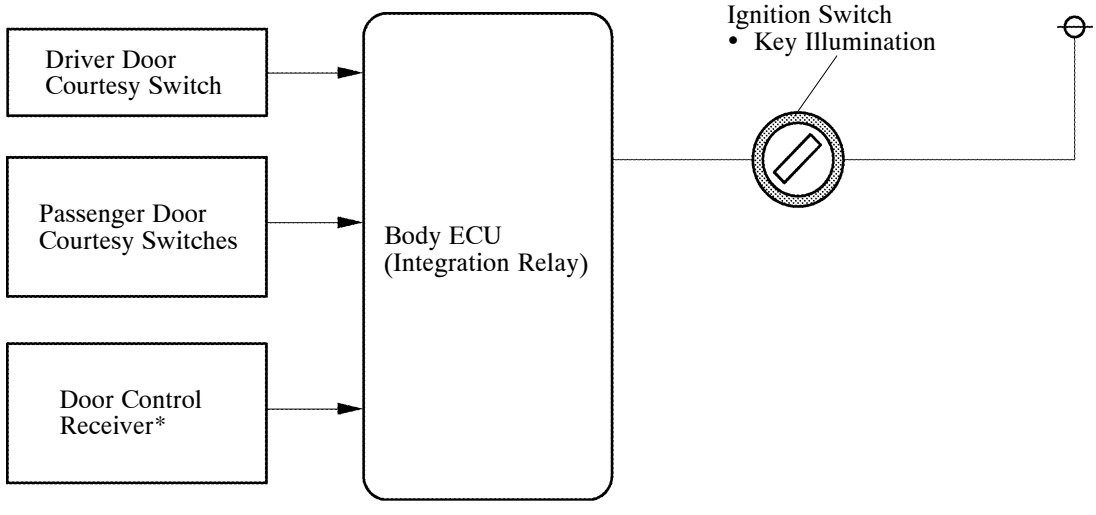

- The new Fortuner/Hilux SW4 uses an illuminated entry system. For details on the provision, see Equipment List on page MO-23.
- This system controls the key illumination and interior lights in accordance with the opening and closing of the doors.
- There are three types of system controls. The system control varies depending on the provision of the wireless door lock control system and theft deterrent system. For details, refer to the table below.

Wireless Door Lock System	Theft Deterrent System	Outline
○	—	• The key illumination is illuminated when the any door is open. • The key illumination is turned OFF when the ignition switch is turned from OFF to ON. • The key illumination is turned OFF when all the doors are locked. • The key illumination is turned OFF 7.5 seconds after all the doors are closed.
—*		
○	○	• The key illumination and interior lights are illuminated when any door is open. • The key illumination and interior lights are illuminated when the doors are unlocked using the transmitter. • The illuminated key illumination and interior lights fade out (approx. 1sec.) when the doors are locked using the transmitter. • The illuminated key illumination and interior lights fade out when the ignition switch is turned ON after all doors are closed. • The key illumination and interior lights are illuminated for approx. 30 sec. after all the doors are closed, and then fade out.
—	—	• The key illumination is illuminated when the driver's door is open. • The key illumination is turned OFF 5 seconds after the driver's door is closed
