BLUETOOTH® HANDS-FREE SYSTEM

■ DESCRIPTION

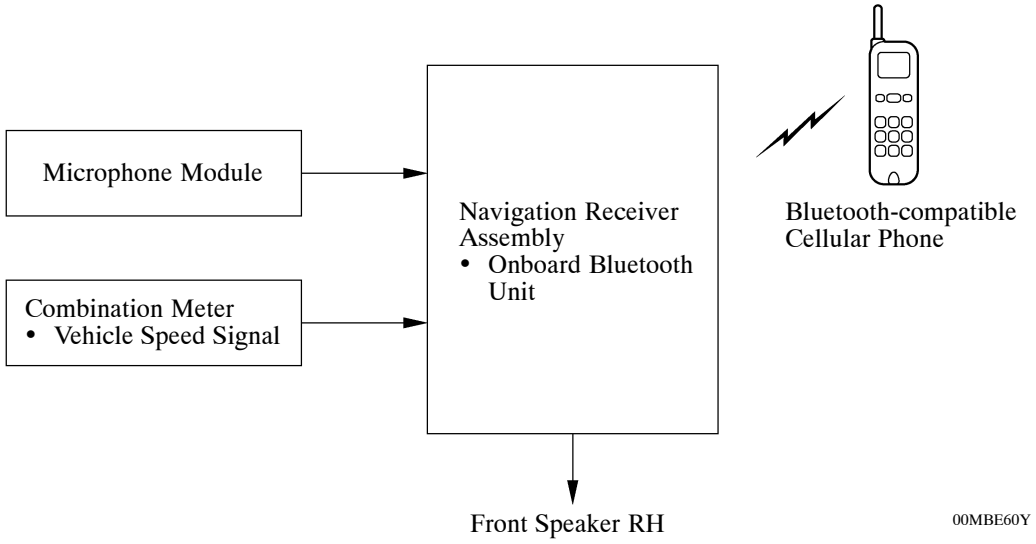

- The Bluetooth® hands-free system is provided on the models equipped with the navigation system with AV system.
- Bluetooth is a short-distance, high-speed wireless data communication system that uses the 2.4 GHz frequency band prescribed by the Bluetooth SIG (Special Interest Group).
- This system enables drivers to place or receive phone calls without having to use their hands to pick up a cellular phone.
- The Bluetooth hands-free system can be operated by touching icons indicated on the navigation receiver assembly.
