EXTERIOR

Front View

- A trapezoidal radiator grille and headlights with projectors in the low beams are used to give a high quality SUV impression.
- A front bumper has been provided with an underguard-like design that is suitable for the SUV.
- A chrome-plated TOYOTA symbol has been provided in the center of the radiator grille.
- Depending on the destination, fog lights have been provided on the front bumper to suit their use environment as an option or a standard. These fog lights help the driver's visibility while driving under adverse weather conditions.
- An engine hood bulge for the intercooler is provided on models with 1KD-FTV engine.

Rear View

- The rear combination lights and the license plate garnish have been laid out linearly in the center of the taut and roundish back door panel. Furthermore, the rear design emphasizes a line that sweeps from the rear quarter pillar downward of the rear combination lights to achieve a powerful and fearless look.
- A rear spoiler with high mount stop light is used as standard equipment except, models on for Thailand with manual transmission. The high mount stop light uses LEDs (Light Emitting Diodes).
